FY 2003-2004 Key Project Accomplishments:

- **Agricultural Commissioner:** From FY 1999-00 to FY 2002-03, RDMD's contracting efforts with the Orange County Vector Control District has resulted in excellent progress in the elimination of Red Imported Fire Ants from Orange County. The County Agricultural Commissioner (RDMD) also serves as the coordinator of the Pierce's Disease Control Program that provides inspection of nursery stock moving from infested counties to avoid the spread of glassy-winged sharpshooter. The majority (98%) of shipments from regulated southern California nurseries have been free of this insect.
- **Preventive Maintenance Program:** RDMD has developed the first phase of a Preventive Maintenance (PM) Program in order to prevent the continued deterioration of County facilities and the resulting hardships associated with building/system shutdown. During FY2003/04 a four person team began working the swing shift in October 2003. This team is utilizing data provided by the Computerized Maintenance Management System (CMMS) which provides profiles of the system and their components that comprise the building infrastructure, and the maintenance histories for those components. The system also provides industry standards for preventive maintenance of building infrastructure, which is being used to focus and direct the activities of the PM team.

Organizational Summary

Ten Year Staffing Trend:

Ten Year Staffing Trend Highlights:

- In January 2004, the Board of Supervisors approved the merger of the Public Facilities and Resources Department (PFRD) and the Planning and Development Services Department (PDSD) into a new County department, the Resources and Development Management Department (RDMD). The many linkages between the two former departments on technical and policy issues will now be more efficiently managed by merging of the two organizations. The newly formed RDMD now includes 1,415 positions in all its administered Agencies & Funds.
- Agency 080 now functions as the main operating agency for RDMD. RDMD administered agencies that contain budgeted staff include Agencies 034 Watershed & Coastal Resources, 040 Utilities, 071 Planning and Development Services and 080. RDMD administered funds that contain staff include 108 Dana Point Tidelands, 115 Road, 137 Parking, 296 Transportation Internal Service Fund (ISF), 297 Reprographics ISF, 400 Flood and 405 Harbors Beaches & Parks.
- In FY 2003-2004 the Board approved 56 extra help conversions and 10 new positions. The 10 new positions included 8 positions for Agency 080 (4 Information & Technology Services to replace more costly contractors

& 4 Facilities Operations Preventative Maintenance positions) and 2 positions for Fund 108 Dana Point Tidelands.

- In FY 2002-2003, five positions were absorbed from the former Local Redevelopment Authority to PFRD (2 in Agency 080, 1 in Parking Facilities Fund 137 & 2 in HBP Fund 405) without additional appropriations and/or NCC dollars; four positions were reassigned to Agency 080, which included 1 from Fund 137 to Facilities Operations and 3 from other PFRD funds (1 in Special Services, 1 in County Property Permits, and 1 in Facilities Operations); seven new augmentation positions were added in Agency 080 (4 in Information & Technology Services, 2 in Facilities Operations, and 1 in A&E Project Management). Overall 13 positions were added at this time to Agency 080 since FY 01-02.
- Prior to the formation of RDMD, the former Public Facilities & Resources Department was established in FY 1997-98 from combining components of the former Environmental Management Agency with components of the former General Services Agency.

Facilities Operations will continue to provide quality facility operations and maintenance and implement preventive maintenance program.

Public Works Engineering services will complete the County's deferred maintenance plan and ensure compliance with the Americans with Disabilities Act (ADA) requirements.

Changes Included in the Recommended Base Budget:

RDMD Fund 080 FY 2004-05 Base Budget Request of \$43,694,524 is \$2,013,854 (4.4%) lower than the FY 2003-04 Modified Budget (Modified Budget includes all approved mid-year budget changes). The difference reflects an increase in Salaries & Employee Benefits of \$683,753 (2.73%), a decrease in Services & Supplies of \$2,247,573 (8.94%), a decrease in Contribution to The UC Co-operative Extension Program \$125,000 (100%), a decrease in Equipment \$312,773 (33.51%), a decrease in cost applied \$74,077 (1.31%) and a decrease of 86,338 (100%) in Operating Transfers Out.

Highlights of Key Trends:

- RDMD will continue a successful pilot Preventative Maintenance (PM) Program for FY04/05. Internal Services implemented Phase I of the PM plan in October 2003. This phase included the establishment of a four person PM team to work a swing shift. PM is a long-term strategy intended to show results and associated cost savings over a period of time. Costs for PM will be tracked and compared against overall maintenance and repair costs for other facilities to evaluate its effectiveness.
- The Red Imported Fire Ant Program, which was budgeted in the amount of \$2.7 million for FY03/04, was cancelled due to the State budget crisis and therefore was not budgeted for FY04/05. RDMD will be working with the County Executive Office (CEO), the California State Association of Counties (CSAC), and the California Department of Food & Agriculture to seek continued State funding of the statewide eradication of the Red Imported Fire Ant.
- The General Fund Net County Cost is within the target established by the CEO.

034 - WATERSHED MANAGEMENT PROGRAM

Operational Summary

Description:

State and federal water quality regulations place great mitigation and financial demands on local government. In addition, greater public awareness and environmental activism has created a new level of expectation on local government to address water quality and watershed issues. Pollutants degrade surface waters making them less able to support drinking water supply, fishing, swimming, and other activi-

ties. To combat water pollution and implement regional water quality improvement strategies, RDMD created this function in early 2001. Through this program RDMD will perform activities to preserve, protect, and enhance coastal resources and surface waters throughout Orange County.

FY 2003-2004 Key Project Accomplishments:

- The total number of Beach Mile days posted during the Assembly Bill 411 (AB 411 - Ocean Water - Contact Sports Standards) period (April-October) decreased 32% from 2002 to 2003. The total number of Beach Mile Days posted during 2003 due to AB 411 standards violations was the lowest recorded for an AB 411 period since 2000.
- Completion of special planning studies to evaluate the effectiveness and applicability of various treatment Best Management Practices.
- Completion of systematic watershed assessment to evaluate opportunities to configure or reconfigure channel segments to address the impacts of urban discharges on beneficial uses (retrofit opportunities).
- Development and implementation of Program Effectiveness Assessment (PEA) program for annual reporting.
- Revision of procedures and practices for sewage spill response.
- Re-evaluation and revision of the water quality monitoring programs.

HAZARDOUS MAT'L DISCLOSURE PRG - Division prepares all of the hazardous material assessments for the department.

WATERSHED & COASTAL RESOURCES - Watershed Planning: Engineering and Project Management will focus on watershed and water quality activities with interested stakeholders on a broad watershed scale basis. The program will involve cooperation between the Army Corps of Engineers, federal and state agencies, local municipalities and other stakeholders to research, evaluate and construct projects to help the department accomplish its goals of integrated watershed planning and implementation.

Countywide Stormwater Quality Program:

Coordinate regional compliance with the National Pollutant Discharge Elimination System (NPDES) program. The County, serving as the principal municipality for the 36 city stormwater co-permittees, will conduct countywide water quality monitoring of creeks, channels, bays, and harbors, inspect illicit connections, condition all new development with water quality protection requirements, conduct water pollution investigations and spill abatement. The County will also coordinate an Internal Stormwater Quality Program with the various County departments to ensure the County's own compliance with the Stormwater permit.

Compliance with the federal Total Maximum Daily Load (TMDL) allocations: The TMDL focus to date has been on the Newport Bay / San Diego Creek watershed, where TMDL's for nutrients, sediment, and fecal coliform have been developed by the State and are currently being implemented. An additional TMDL for toxics has been approved by the U.S. Environmental Protection Agency with implementation plans to be developed by the Santa Ana Recreational Water Quality Control Board.

Countywide Hydrologic and Meteorological Data Collection System:

Operate and maintain the Automatic Local Evaluation on Real Time (ALERT) Flood Detection System which consists of a network of over 100 rainfall and flood control and reservoir water level sensors strategically located throughout Orange County.

Coastal Resources Engineering: Coastal engineering is a critical element of our water quality protection efforts. This activity involves aspects of near-shore oceanography, marine geology and civil engineering. Coastal Resources staff is developing a Coastal Resources Management Plan, which will provide a long-term plan to address management of coastal resources, prevention of coastal erosion, protection of recreational opportunities and identification of dredging and sediment flows through coastal watersheds. Other critical activities that the Plan will include are: regional sand management, safe harbor navigation, coastal water quality and shoreline protection and preservation.

Additionally, the Division now has responsibility for implementing the Five-Year Action Plan; maintaining the General Plan; coordinating necessary transportation and air analysis for private and public projects within the unincorporated county areas; monitoring all Development Agreements to ensure compliance with obligations; processing Annual Monitoring Reports for larger planned communities; maintaining and updating environmental and urban information

themes, developing graphics for department reports; conducting special studies and analyses; and providing support for Watershed Planning Projects and Water Supply issues requiring coordination with other County agencies, Cities, State and Federal agencies.

Other services provided by CAPS include some activities dependent upon specific policy decisions by the Board of Supervisors to continue or expand general fund support, such as Code Enforcement and Community Revitalization.

PLANNING COMMISSION - PDSD provides clerical support to the Planning Commission.

ENVIRONMENTAL/PROJECT PLANNING - This Division is charged with the critical duty of implementing and ensuring project compliance with the California Environmental Quality Act (CEQA); preparing community, specific and area plans; preparing and reviewing Environmental Impact Reports (EIRs), negative declarations, initial studies, categorical exemptions and other CEQA-related documentation for private and public projects within the unincorporated areas; providing technical site planning and engineering support for environmental issues and special project analyses; acting as liaison to the California State Coastal Commis-

Available to the public for state-of-the-art access and convenience to users, APPS also offers a wide variety of activity, use and trend report generation. Employees assigned to this activity now report directly to the Information Services Manager for the Resources & Development Management Department.

HUMAN RESOURCES - This unit provides technical direction and support for all PDSO functions in the area of human resources, including recruitment, hiring, classification, employee relations, position control and implementation of corporate policies and procedures. Employees assigned to this activity now report directly to the Human Services Manager for the Resources & Development Management Department.

- Six(6) positions were transferred from RDMD/Planning Budget 071 to RDMD/General Budget 080 in FY 2003/2004 3rd Quarter Budget Report as part of the implementation of the approved merger of PDSO and PFRD to become the Resources & Development Management Department (RDMD).

This reflects transfer of better roads to cities and redefining of "Good" to exclude roads defined as "Fair" in the Pavement Management System.	Slightly below target due to change in definition of "Good" and transfer of better roads to the cities due to incorporation.
ACCEPTABLE OPERATING SPEED AT COUNTY ARTERIAL INTERSECTIONS. What: Percentage of Uninc Co Arterial Intersections with acceptable operating speed as determined by OCTA. Why: Indicates efficiency of roadway system in unincorporated areas as the result of design improvements.	94% of the County Arterial Intersections have acceptable operating speed as determined independently by the Orange County Transportation Authority. Ten Year Staffing Trend:

Ten Year Staffing Trend Highlights:

- Staffing generally decreased until FY 97-98 because of the loss of funds due to the ERAF shift. Staffing has expanded starting in FY 97-98 with the addition of more days per week of public service at all branch libraries, with the assumption of the decentralized functions of Human Resources, Purchasing, Facilities maintenance and construction and the addition of new libraries in Aliso Viejo, Costa Mesa, Laguna Hills, Foothill Ranch and Ladera Ranch which opened in September 2003. A net reduction of 10 positions in FY 2003-04 from the Final Budget in FY 2002-03 was used to help

offset a reduction in State Public Library Fund revenue. The net addition of 1 position for FY 2004-05 is to prepare for the opening of Wheeler Ranch.

Changes Included in the Recommended Base Budget:

Included for the base budget is a full year of operating expenses for the Ladera Ranch branch which opened mid-year in September 2003.

Budget Summary

Plan for Support of the County's Strategic Priorities:

The Orange County Public Library will continue to work with the Library Advisory Board to provide and develop services responsive to the communities we serve. Staff will continue to implement and refine the organizational measurement program (ROG) and the employee pay for performance program (PIP). In line with the Strategic Plan, the Library will continue to operate solely through dedicated Library Fund revenue sources, maintaining a Net County Cost of zero.

280 - AIRPORT - OPERATING ENTERPRISE

Operational Summary

Mission:

The mission of John Wayne Airport is to plan, direct, and provide high quality aviation services and facilities for Orange County in a safe, secure and efficient manner.

Strategic Goals:

- Maintain a safe and secure environment for aviation and the traveling public.
- Provide a positive aviation experience to travelers and tenants.
- Operate in an environmentally responsible manner.
- Operate as a financially efficient and self-supporting aviation facility.

Key Outcome Indicators:

Performance Measure	2003 Business Plan Results	2004 Business Plan Target	How are we doing?
SUCCESSFULLY PASS THE ANNUAL PART 139 AIRPORT CERTIFICATION INSPECTION. What: Annual inspection conducted by FAA to ensure JWA is being operated in a safe and efficient manner. Why: To maintain a safe operating environment for aviation and the traveling public.	The Annual Part 139 inspection is conducted by the FAA during which time all elements specified in Federal Aviation Regulation (FAR) Part 139 are examined. JWA successfully passed the Annual Part 139 inspection.	Successfully pass the Annual Part 139 Inspection by continuing to perform twice daily airfield inspections and identify, report and correct any items that deviate from FAA specifications.	We have consistently passed the Annual Part 139 Inspection.
COMPLY WITH TSA SECURITY REGULATIONS AND THE AIRPORT SECURITY PLAN. What: TSA regulations mandate security elements at each airport to comply with federal requirements. Why: Accomplishes the necessary passenger and facility security and complies with federal requirements.	This is a new outcome indicator for FY 04-05.	Implement TSA security regulations and the Airport Security Plan. Update the Airport Security Plan to reflect significant regulatory changes required by TSA.	JWA insured the security requirements of TSA Regulation 1542 were integrated into its Security Plan and fully complied with the regulation specifics, which mandate airport responsibilities for security measures including building security, perimeter security, and badging security systems.
% OF GOOD OR EXCELLENT OVERALL RATING IN THE "AIR TRANSPORTATION USER" AND "AIRPORT TENANT" SURVEYS. What: Surveys conducted to measure passenger/tenant satisfaction with Airport's service and performance. Why: To ensure that our service to customers and tenants meets or exceeds their expectations.	The survey of Air Transportation Users (passengers) was conducted in August 2003. 94 percent of the respondents said they found Airport services to be "Excellent" or "Very Good."	Conduct "Airport Tenant" survey to identify user perception of and recommendations for improving Airport facilities and services.	We have consistently been rated good or excellent by a significant majority of users and tenants.

ENFORCE ALL PROVISIONS OF THE PHASE 2 COMMERCIAL AIRLINE ACCESS PLAN AND REGULATION. What: Balances need for airport with desire of community for environmentally responsible operation at JWA. Why: Compliance conveys message that County will completely fulfill its commitment to its residents.	100 percent compliance with Plan allocation provisions.	Continue to maintain 100 percent compliance.	The provisions of the Phase 2 Commercial Airline Access Plan, other than the allocation provisions that have been amended, became effective on October 1, 1990. Since the Plan's implementation, the County has been in 100 percent compliance of its duties and responsibilities.
CONTINUE A DEBT SERVICE COVENANT OF AT LEAST 175 PERCENT. What: Requires Airport net revenues each year of at least 125% of debt service requirement for FY. Why: Provides JWA with opportunity to demonstrate to financial community its ability to repay debt.	Successful management of the Airport's rates and charges structure is critical to generate revenue required to fulfill JWA's obligations under the indenture. The debt coverage ratio for FY 02-03 was 197 percent.	Continue to maintain 100 percent compliance.	Since issuance of the 1987 Airport Revenue Bonds, JWA has consistently exceeded the rate covenant imposed by indenture. Current credit ratings for the Airport are Aa3, A+, A+ respectively from Moody's, Standard & Poor's and Fitch.
MAINTAIN AN INVESTMENT GRADE BOND RATING. What: A credit rating is an opinion of an issuer's overall ability to pay its financial obligations. Why: Such an opinion focuses on JWA's ability to meet its financial obligations as they come due.	JWA has maintained its very high bond ratings. JWA bonds were upgraded by Standard and Poor's from an A rating to an A+ rating. Fitch also upgraded the outlook associated with their A+ rating to positive from stable, and Moody's maintained an Aa3 rating.	Continue to maintain our very high bond ratings.	JWA is one of only six airports to receive a credit rating upgrade since September 11, 2001.
CONTINUE REVENUE DIVERSITY WITH A MAJORITY OF INCOME FROM NONAERONAUTICAL SOURCES. What: Revenue from food and beverage, news and gifts, taxi and shuttle, parking and rental cars. Why: Nonaeronautical revenue provides discretionary income to the Airport, enhancing financial strength.	This is a new indicator for FY 04-05.	Maintain at least 51 percent of Airport revenue from nonaeronautical sources.	We are projecting that 64 percent of FY 03-04 revenue will be from nonaeronautical sources.

FY 2003-2004 Key Project Accomplishments:

- JWA served over 8.1 million passengers in FY 02-03, (8.5 million passengers in calendar year 2003) representing the highest annual count in Airport history. The Airport's busiest day in its history was on December 1, 2003 with 31,518 passengers.
- During 2003, the Board approved three new entrant carriers into service at JWA. Frontier Airlines and Midwest Airlines began Commercial service to Denver in August, and to Kansas City in October, respectively. Atlantic Southeast Airlines began Commuter service to Dallas in September.
- A professional survey of passengers was completed in August 2003. 94 percent of the respondents said they found Airport services to be "Excellent" or "Very Good."
- Airline requests for installation of e-ticket machines in the terminal lobby and at the ticket counters were approved by JWA for numerous carriers. The Airport continues to review requests for additional e-ticket machines and other automated passenger related products to enhance customer convenience and service.
- The Airport passed the annual FAA Airport Certification Inspection and all quarterly Security Inspection Audits - yardsticks by which the FAA measures airport safety and security.

- The Airport ensured the TSA security regulations were integrated into its Security Plan and it fully complied with the Airport responsibilities for security measures.
- Successful operation of the Federally required ATSA baggage-screening system. JWA serves as a national model for baggage screening system networking and software upgrades.
- Designed and constructed two additional passenger-screening checkpoints, increasing the total checkpoints from six to eight while also accommodating heightened security requirements.
- 1 million tower operations without incident.
- The Airport successfully initiated an Internet-based aircraft flight tracking system available through the JWA Web site. Through this system the public is able to view air traffic activity in the communities surrounding the Airport.
- As a result of the Amendment to the 1985 Settlement Agreement, on June 24, 2003, the Board-approved additional operating capacity to serve the traveling public and cargo-shipping public was allocated to the Commercial Carriers, All-Cargo Carriers, and Commuter Carriers, consistent with the provisions of that Amendment.
- The Airport realized an increase in fiscal year 2003 operating revenue of approximately \$6.9 million over the previous year.

Budget Summary

Plan for Support of the County's Strategic Priorities:

As an enterprise fund, John Wayne Airport is self-supporting through revenues it generates and receives no monies from the County General Fund. Revenues are utilized to operate the Airport, provide for repayment of revenue bonds, fund facility capital improvement or maintenance projects, and support aviation planning.

Changes Included in the Recommended Base Budget:

Operating costs increased by \$2.5 million due to increased retirement and insurance costs, increased trash pick-up and custodial costs related to increased passenger traffic, and increased maintenance costs due to additional resources required for existing facility critical projects identified in the Backlog Maintenance and Repair (BMAR) analysis.

Non-operating costs were reduced by \$8.7 million to increase reserves for funding of the Settlement Agreement Implementation Plan, offset increased maintenance expense, and to reflect reduced debt service payments.

Highlights of Key Trends:

■ Due to the age of the terminal building and the rise in the number of passengers and commercial aircraft operations, it has become evident that a greater work effort in general maintenance and restorative work is required to maintain the present condition of the Airport.

■ The Backlog Maintenance and Repair (BMAR) analysis recently prepared for JWA by an industry consultant identified several critical projects necessary to adequately maintain the Airport in an acceptable condition for the next five years. The Maintenance budget includes an additional \$2.01 million in contract and material costs for these projects.

- Existing staff has been managing a workload which increased substantially as a result of the implementation of federally mandated security regulations, growth in operational capacity and passengers, increased financial planning and analysis, and increased legislative and regulatory reviews.
- Five additional positions have been requested through Budget Augmentation to address increased workload issues.
- Planning is underway for the Settlement Agreement Implementation Plan (SAIP). The financial feasibility study is nearing completion and financing methods are being evaluated.

Strategic Goals:

- Continue to comply with debt defeasance requirements in accordance with the Bond Indenture.
- Maintain Moody's Aa3 rating, Standard and Poor's A+ rating and Fitch's A+ rating on JWA revenue bonds.

FY 2003-2004 Key Project Accomplishments:

- Met or exceeded all financial and reporting requirements in accordance with the Bond Indenture.
- The Airport successfully reduced its debt burden through the sale of \$48,680,000 in Series 2003 Revenue Refunding Bonds. Proceeds from the bonds, which sold at a premium of \$4,205,712, together with approximately \$10.2 million in Airport reserves, were used to refund the \$65,250,000 principal amount outstanding on the Airport's Series 1993 Bonds on July 1, 2003. This transaction resulted in a \$16.6 million reduction in the Airport's outstanding bond debt and provided for debt service savings of approximately \$1.5 million per year through 2018.
- To enhance interest earnings, the Airport executed debt service Investment Agreements for the Series 2003 Reserve fund and Principal and Interest accounts achieving guaranteed annual interest rates of 4.47% and 4.27% respectively through the first call date of July 1, 2013.
- Under its bond indenture, the Airport has an obligation to ensure repayment of its bonds and maintain a net revenue rate covenant of at least 125%. In 2003, JWA paid approximately \$20 million to bondholders, continuing to consistently meet the annual debt service requirement. Strong operating results produced rate coverage of 197% for the 2003 fiscal year.
- The Airport's current bond ratings of Aa3, A+ and A+ from Moody's, Standard & Poor's and Fitch respectively, are among the highest in the nation compared to airports of similar size.
- The Santa Ana Heights Acoustical Insulation Program administered by John Wayne Airport completed acoustical improvements to the final phase of eligible residential units within the community of Santa Ana Heights. This milestone culminates an Orange County program that accomplished acoustical insulation to reduce outside noise intrusion within 416 residential units.

JWA DEBT SERVICE - Provides appropriations to account for all debt service and related trustee activity as required under the JWA Bond Indenture.

SA HEIGHTS ACOUSTICAL PROGRAM - Provides appropriations to account for all aspects of the Santa Ana Heights Acoustical Insulation Program.

Operational Summary

Mission:

To meet the solid waste disposal needs of Orange County through efficient operations, sound environmental practices, strategic planning, innovation and technology.

At a Glance:

Total FY 2003-2004 Projected Expend + Encumb:	170,039,527
Total Recommended FY 2004-2005 Budget:	152,039,639
Percent of County General Fund:	N/A

Strategic Goals:

- Maintain a competitive rate for waste disposal in Orange County.
- Protect water, air and habitat in the management of the Orange County Disposal System.
- Financially support the County of Orange's Bankruptcy Recovery Plan.

Key Outcome Indicators:

Performance Measure	2003 Business Plan Results	2004 Business Plan Target	How are we doing?
GATE FEE COMPARISON WITHIN SOUTHERN CALIFORNIA. What: Comparison of disposal rates of the OC landfill system compared with other landfills in the region. Why: To ensure that Orange County residents are provided a competitive disposal rate.	The \$22 per ton rate is a contracted rate that is anticipated to stay in effect until 2007.	Evaluate disposal rates and adjust operating strategies to ensure IWMD's rates remain competitive.	IWMD's rates are currently in the lowest 10% within the Southern California region.
NUMBER OF YEARS OF REMAINING LANDFILL CAPACITY. What: Measures if Orange County meets state minimum standard of providing 15 years of landfill capacity. Why: To ensure that Orange County residents are provided with adequate landfill capacity.	To maintain 25-30 years of permitted landfill capacity.	Perform remaining landfill capacity calculations and compare results against the state minimum standard of 15 years capacity for all jurisdictions to ensure adequate capacity.	IWMD has more than adequate capacity to fulfill the requirement.
TOTAL VOLUME OF LEACHATE AND IMPACTED GROUND WATER COLLECTED THROUGH THE LEACHATE RECOVERY SYSTEM. What: Measure the amount of leachate and ground water collected. Why: To protect water quality from the effects of leachate. Mandated by law.	The total volume of leachate and impacted ground water to be collected through FY 03/04 is estimated to be 4,648,067 gallons.	Continue to install landfill liner systems, and optimize leachate and groundwater collection for water quality protection.	IWMD currently has collection and recovery systems in place at each landfill to collect leachate and impacted ground water.

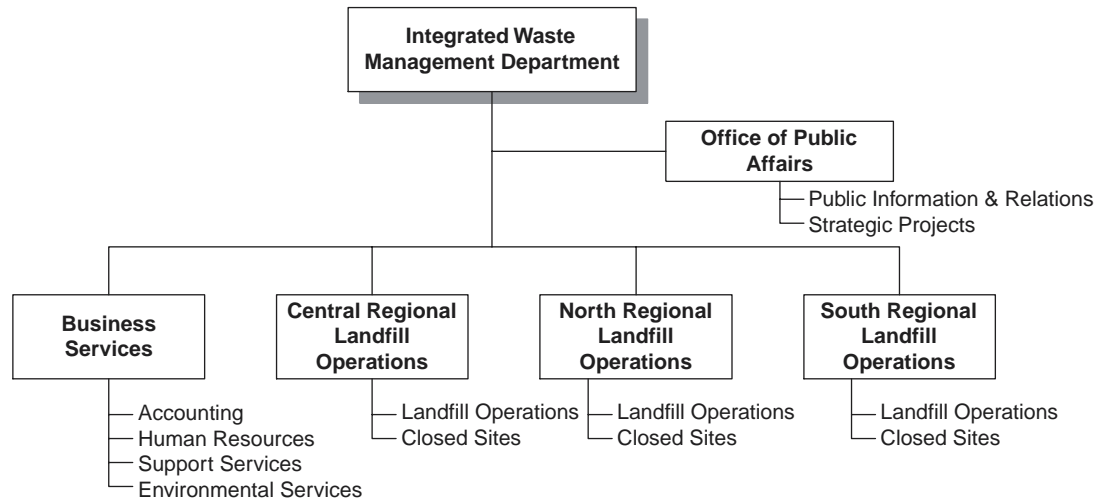

Key Outcome Indicators: (Continued)

Performance Measure	2003 Business Plan Results	2004 Business Plan Target	How are we doing?
AMOUNT OF LANDFILL GAS COLLECTED AND PUT TO BENEFICIAL REUSE. What: Collection of landfill gas and put to beneficial reuse. Why: To protect the air from the effects of landfill gas. Regulations require landfill gas management.	The total volume of landfill gas collected and put to beneficial reuse is estimated to be at least 2,248 million standard cubic feet.	Expand landfill gas collection systems. Collect landfill gas - put to beneficial use and for protection of air quality.	Currently, IWMD has operational Landfill Gas-to-Energy systems at Olinda Alpha and Prima Deshecha Landfills. Installing a system at FRB is currently under negotiation.
NUMBER OF HABITAT ACRES CURRENTLY UNDER RESTORATION/MITIGATION. What: Measures the number of landfill acres under restoration to recreate natural habitats. Why: To comply with the Natural Community Conservation Program (NCCP)	FRB Landfill: Increased native plant coverage at mitigation sites. Decreased exotic weed infestation. Prima Landfill: Approval from Resource Agencies for Phase B Bio-mitigation area.	FRB Landfill: Continue weed abatement efforts. Continue education programs. Santiago Canyon Landfill: 97 acre habitation restoration project. Prima Landfill: Implement weed abatement, exotic plant removal and establish a plant replacement program.	Prima Landfill: 11.84 acres of riparian habitat and 12.36 acres of Coastal Sage Scrub will be created at the landfill to replace disturbed habitat.
NET IMPORTATION REVENUE AMOUNT TRANSFERRED TO THE COUNTY GENERAL FUND PER YEAR. What: Revenue transferred to the County General Fund from imported waste. Why: To support the County's Bankruptcy Recovery Plan.	IWMD anticipates transferring \$12.5 million to the General Fund in FY 03/04. Based on actual amount of tonnage received.	The Department target for FY 04/05 is to provide the maximum transfer of funds in support of bankruptcy obligations.	As of 3/31/04 \$100,077,652 has been transferred to the General Fund.

FY 2003-2004 Key Project Accomplishments:

- Completed Phase I of the Landfill Information Systems Technology Study (LISTS), replacing outdated landfill fee collection and accounts receivable system thus improving customer service, functionality and date accuracy, and provide enhanced landfill data management and reporting.
- IWMD received an unqualified financial audit opinion indicating accurate representation, confirmation that IWMD continues to be financially responsible in performing public service.
- The Household Hazardous Waste System won the CAL EPA award for best new (CRT) Cathode Ray Tubes program.
- Implemented a state-of-the-art Wide Area Network, supporting highly automated landfill operations and business practices. IWMD maximizes the use of existing computer resources, while implementing new technology to streamline processes, reduce costs and improve customer service.
